

# **NAMING YOUR SALON, BARBERSHOP OR SPA**

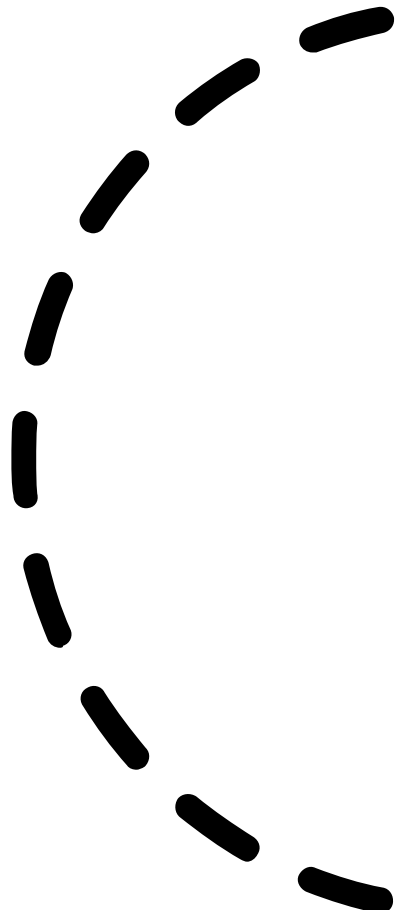

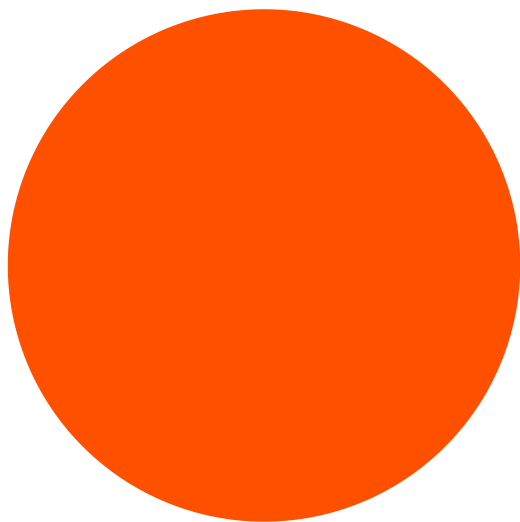

## INTRODUCTION

This workbook is designed to help you find the perfect name for your salon, barbershop, or spa business. A name that will last the test of time while representing your unique brand.

This will be done in two steps:

- 1) The Brainstorm: Come up with name ideas through a brain storm process
- 2) The Judge: Filter out name options so that you land on the best possible name for your business and brand.

## YOUR NAME IS AT THE HEART OF YOUR BRAND

Your name says a lot about you and your brand. In fact, it's likely to be the first thing people are exposed to when they hear about your business the first time.

### Learn How to Build a Client-Attracting Brand for Your Salon, Barbershop or Spa

This workbook is part of the course material for "The Art of Building a Premium Salon or Spa Brand".

This is where you learn how to build a brand that attracts clients and that allow you to charge the prices you deserve.

Your name is just the beginning.

Learn more about the course and register here:

**[TheSalonBusiness.com/Branding](https://TheSalonBusiness.com/Branding)**

John Hallberg  
Owner TheSalonBusiness.com

# THE BRAINSTORM

Before you judge if a name is good or not, we need to generate a list of minimum 20 ideas for potential business names.

It's important that you conduct your brainstorm, without judgment, first. If you're trying to think about if a name is good or not already as you conduct the brainstorm, you'll limit your creativity and ultimately the quality of the final name you decide to go with.

Just write down all the ideas that come to mind when you're thinking about what to name your salon or spa.

The following three pages will guide you through the brainstorm process.

## THE BRAINSTORM

# WHAT MAKES YOU UNIQUE?

Write down things that are unique about you and your business. In the course, The Art of Building a Premium Salon or Spa Brand, you will have uncovered your unique story, purpose, and values. Use this as inspiration to spark ideas for names that are unique to you.

Where you  
learned your  
craft?

Techniques  
& methods you  
use?

Your  
location?

# THE JUDGE

You should now have a found 20+ name ideas. And your future business name is likely hiding somewhere in there. But how do you judge if a name is good or not?

This is what we are going to cover next.

On the next page, you'll find 7 different questions that I want you to ask yourself as you go through each name on your list.

You can use the short-list template on the pages after and add your final name options.

## THE JUDGE

# QUESTIONS TO ASK

1

### **Will people immediately understand what you do?**

Many times you only have a split second to capture a potential new client's attention. It's therefore important that people understand what you do when they hear or see your name.

If this is not obvious from the name, consider adding a tag line or append an explanation to the name (e.g. Ubuntu Hair Salon) so that this comes across.

2

### **Is it easy to pronounce and spell?**

Word-of-mouth remains one of the most powerful marketing methods for salons and spas. You should therefore consider how easy it is to say your name correctly.

And when people have heard about you, can they spell it when they want to look you up on Google or social media?

3

### **Does it fit the character of your brand?**

If you've completed "The Art of Building a Premium Salon or Spa Brand", you should have a well defined brand strategy that also includes your brand's character. That is, the personality of your business and brand.

Your name is an important way in which your character is communicated so you want to make sure they fit.

## THE JUDGE

# QUESTIONS TO ASK

4

### **Is your name unique to you?**

You should make sure your name is not similar to another similar business in your area. Your name should, ideally, also reinforce unique aspects of your brand by incorporating your purpose of story. This is not a must but will strengthen your brand if there is a connection.

If you have complete The Art of Building a Premium Salon or Spa Brand, you will have discovered your story and purpose.

### **Bonus Questions**

I recommend you use the first 4 questions to filter down your list. The remaining questions are bonus questions that can help you further reduce your options.

5

### **What does your name look like?**

Your name should not only sound good but it should also look good in a logotype? Thus, a good way to further filter down your name selection is to do a logo mockup. Some letters and words simply look better.

6

### **Can you find a good available domain name?**

Most domain names (e.g. examplesalon.com) are already taken today. However, your domain name is an important branding element today so if you can find a domain name that closely fits your name, this could be yet a reason to select that name over another.

## THE JUDGE

# QUESTIONS TO ASK

7

### **What does your target client think about the name?**

Have your target client in mind when selecting the name. Will it resonate with her? If you only have a few names left on your list, test them on your target client and see how she reacts.

### **Final words: Trust your gut**

The 7 questions to ask when judging the best name for your salon or spa should help you filter out and find name options that will stand test of time and represent your business in the best possible way.

But finding the perfect name is not just science. It's also an art.

Leave this to the side. Think about something else and sleep on it. Come back with fresh eyes, look at your name list, and trust what your gut tells you without over thinking.

In the end, that's how other people will judge the name.

With their gut.
